

Strands Cumulative Index - March 2008

First Name	Surname	Title	V #	Summary
Fons	Baggelaar	Tablet weaving in the Netherlands	1	History of this group, and their use of the missed hole technique
Paddy	Bakker	Rodrick Owen – an appreciation	7	How Rodrick found braids
Jean	Ball	Machine stitched bands	3	Method for producing a braid by machine sewing over a stretched warp
Elizabeth	Benns	The London silkwomen and the “laptop” loom	8	Medieval narrow wares and re-enactment
Shirley	Berlin	Braids and bands on the internet	4	How to use the internet to research braiding, list of useful sites
Shirley	Berlin	Design as you go ikat	7	Method to dye threads and weave random patterns. Microwave dyeing technique.
Shirley	Berlin	Tablet weaving: an overview of a centuries old technique	8	Netherlands Exhibition Breda 2001
Shirley	Berlin	Two tablet stripy narrow band	8	Swedish Lapland 2 colour band using 2 tablets and 2 shuttles
Shirley	Berlin	One more braid for your collection	10	Making a knotted band based on a series of Carrick bends
Shirley	Berlin	Braiding with rawhide and leather	12	History and practical details of this technique
Shirley	Berlin	Korean braiding – Kkummok. The cords that make Maedup, the famous art of Korean knotting	14	Details of the Kkummok braiding stand and how to use it to make braided cord for Maedup. Instructions to make three braids.
Ruth	Black	Weaving fringes using the Heath Robinson method	12	Using a small scale peg loom and cord twisters
Anneliese	Bläse	Bandweaving adventures in Uganda, Africa	5	Teaching weaving using rigid heddle and back-strap
Ann	Brammer	Memories of Guizhou	14	Studying Miao and Dong braiding techniques in China
Geoffrey	Budworth	Knitting ventured, knotting gained	11	Knots of use to braiders, both practical and decorative
Rod	Byatt	Kumihimo in Kansai: Travel notes of a braider	12	Tips for travel and braid research in Japan
Jacqui	Carey	Colour by numbers	1	Using diagrams to design marudai braids
Jacqui	Carey	Murmurs from the basement	3	Looking, observation and research – where to see Japanese Samurai armour in the UK
Jacqui	Carey	Beads and braids	6	Techniques for embellishing braids with beads. Making beaded tassels.
Jacqui	Carey	The Chamberlen secret	10	9 element silk braid used for joining 17 th century obstetric forceps
Jacqui	Carey	Braids and beyond	11	A review of the exhibition
Jacqui	Carey	Portrait of a Miao braid maker	14	A look at the life of a Miao lady, and how she makes and uses braids.
Jacqui	Carey	A 9-element 8-ridge flat braid from the Miao tradition	14	Detailed instructions for making this braid on a Chinese braiding stand
Peter	Collingwood	Altered rigid heddles in band weaving	7	Producing a third shed using a modified rigid heddle
Peter	Collingwood	Burmese inscription bands	11	Sazigyo: tablet woven bands used to bind Buddhist scriptures
Anna	Crutchley	Corduopia	11	History of trimmings. Bibliography and websites. Photographs from a professional cord spinning workshop
Bonnie	Datta	Designing Egyptian diagonals	5	Practical instructions for designing and making tablet woven diagonal patterned braids
Valerie	Davis	Kumihimo on the internet	3	Review of the KumiSwap internet discussion forum
Anne	Dixon	The inkle loom – think 90 degrees	2	Making an inkle band based on the 3 shaft loom Krokbragd technique
Anne	Dixon	South American surface patterning using an inkle loom	11	Description of technique, with practical instructions for designing and making pick-up patterned bands
Anne	Dyer	Purse strings unraveled	4	16 th and 17 th century English loop braiding techniques – Lady Bindloss as primary source
Anne	Dyer	Donkey loom	11	Instructions for making bands and fringes on this simple loom
Anne	Dyer	Ply-split figures	11	Making a 3D creature using ply split
Celia	Elliott-Minty	The evolution of a table-weaving loom	8	Designing a robust, portable loom
Celia	Elliott-Minty	Tablet weaving from a new angle	10	Using triangular and hexagonal tablets
Claire	Gérentet	The tie that binds	10	Reconstruction of a French tablet woven linen seal braid (lacs) from 1228
Edna	Gibson	Knitted, crocheted and knotted braids	9	Narrow cords using different techniques
Edna	Gibson	Jewellery findings	11	Description of findings and explanation of uses
Ruth	Gilbert	Ask a silly question	10	How to formulate a research strategy that gets results
Ruth	Gilbert	Ply splitting terminology	10	Formal definition of language for use in describing ply-split artefacts and techniques
Annie	Goudge	Braid making with a lucet	3	Lucet cords – threads, techniques and uses
Ruth	Green	Facts easily ignored	4	Braids and bands in the history of dress – assessing the evidence

Julie	Hedges	Making Waves	5	Ply split jewellery – detailed instructions for 3 designs using 6 or 12 4-ply cords
Julie	Hedges	Bands on the costumes of the Sarakatsani	11	Decorative use of ply-split darning by this nomadic people from Macedonia and Thrace
Linda	Hendrickson	Tablet weaving study visit to England and Holland	4	Visits to Peter Collingwood, Museum of Mankind, V&A, Pitt Rivers Museum and the Dutch tablet weavers Fons Baggelaar, Freerk Wortman and Marijke van Epen. Information about the TWIST forum.
Linda	Hendrickson	Tablet-woven piping	4	Instructions for making a piping braid- round on one edge, flat on the other
Ernie	Henshall	The multi-thread strangler	2	A device to measure thickness of thread bundles
Ernie	Henshall	Beggar's prayer knot	3	A knot for a walking stick
Ernie	Henshall	Flat Braids	3	Making plain or twill V fell braid on simple equipment
Ernie	Henshall	The reclining “maiden”	5	Design for a device to assist with loop manipulation braiding
Masako	Kinoshita	On braiding tools and their methods	4	Evolution of Japanese braiding equipment - kute-uchi loop braiding, marudai, kakudai, slotted squares
Masako	Kinoshita	Miao stand and bobbin braiding technique	7	Chinese Maio methods. Instructions for 2 different 9 element braids
Masako	Kinoshita	Two-person loop braiding procedures converted for working alone	12	Detailed instructions for working these designs solo
Jenny	Kosarew	More braids and bands on the internet	5	5 Internet web sites and forums
Margot	Lees	A heartbreak no more	13	Practical instructions for making a fill gap braid on a slotted disk
Sarah	Lowry	Machine and handmade braids	14	How can the contemporary textile designer work with both approaches to create new work?
Ann Louise	Luthi	A history of hair jewellery	8	Rise and fall of the fashion of using human hair as ornament
Ruth	MacGregor	The tie that binds	10	Reconstruction of a French tablet woven linen seal braid (lacs) from 1228
Ruth	MacGregor	Weaving with angels	12	Investigating images the Virgin Mary working with textiles
Ruth	MacGregor	Rodrick Owen	13	In interview with Rodrick. How he discovered and studied kumihimo.
Ruth	MacGregor	Korean braiding – Kkummok. The cords that make Maedup, the famous art of Korean knotting	14	Details of the Kkummok braiding stand and how to use it to make braided cord for Maedup. Instructions to make three braids.
Veronica	Main	Straw – its place in the Braid Society	2	A history of decorative straw braiding in the UK, Switzerland and Italy
Alison	Morton	Kumihimo in Australia	4	Review of the activities of the Melbourne kumihimo group
Ray	Napier	Akha braids and tassels	1	Decorative braids and tassels made by the Northern Thailand Akha hill tribe using a bow loom
Rosalie	Neilson	Hira kara gumi	3	Kumihimo biography. Developing software to explore pattern possibilities for an 8 bobbin marudai braid
Rosalie	Neilson	The silk standard	4	Traditional qualities of silk used for Obijime and table of equivalents for other yarns
Rosalie	Neilson	Calculated risks and happy accidents	5	Experiences of teaching braiding to young people, including use of the Braid Runner computer design program
Ann	Norman	The story of the Tibetan Twister	6	How this cord making device was discovered and developed. How to use it.
Rodrick	Owen	It all depends	7	How to describe the structure and appearance of braids. Oblique interlaced braids, double braids and takadai.
Rodrick	Owen	Interlaced braids – an overview	13	A review of braiding traditions from around the world, covering China, the Baltic States, East Slav cultures, the Middle east, Tibet, Mongolia, India and Korea, concluding with a review of the development of Japanese kumihimo and the takadai.
Jennie	Parry	Photographing textiles	1	Photographic techniques for documenting textiles
Jennie	Parry	One man's journey – Ernie Henshall	2	An interview with Ernie Henshall, discussing his braiding biography and inventions
Jennie	Parry	Curious commissions	9	Oblique interlaced braid for a piano
Aviva	Peres	The pleasure of showing the work of our hands	6	Seam Gallery Dec 1999 – preparations
Alan	Pheasey	Take a bigger dai	1	Designing and using extended takadai rails to allow use of more bobbins
Gudran	Polak	Cross-pollination in fibre arts	13	Reinterpretation of a traditional weaving draft in knitting, tablet weave, takadai and Andean sling braid
Margaret	Potts	Suggestions for a tie-up	8	Braid incorporated into clothing as fastenings and embellishment
Freda	Robinson	Flat braids with less fuss	6	Using a slotted card to make flat braids.
Clare	Rose	Historic textiles	1	History of silk weaving in Lyons, France. Review of Lyons textile museums
Julie	Rutter	Narrow wares take centre stage	8	Authentic recreation of Tudor clothing and braids for use at the Globe Theatre, London
Ziggy	Rytka	Lucet: a tool for the 21 st century	6	Development of a modern design for the lucet and new techniques for using it to make complex cords
Akiko	Shimanuki & students	Five splitters, five minds	9	Ply split objects, tools and materials – examining the work of 5 Japanese artists. 3D Ply-split
Robyn	Spady	Big impact from small bands	13	Designs for galloons (trim braids)
Nina	Sparr	Hairwork	2	Traditional Swedish hair braiding and jewellery making using the chain stand

Noémi	Speiser	Terminology – a plea	3	Definitions of the terms Braid, Braiding, Band and Weaving
Noémi	Speiser	Old English pattern books for loop braiding	7	Researches into 15 th and 17 th century braids. Overview of the loop braiding technique.
Noémi	Speiser	Pondering over tiny tatters	8	Loop braiding detective work – investigating the structure of historic braid fragments.
Noémi	Speiser	The three super-categories of fabric-making processes	10	Diagrammatic definitions of the 3 principle textile structures
Noémi	Speiser	The three key questions	10	Guidance for fabric structure analysis , and investigating original method of production through reproduction
Noémi	Speiser	The braid on the Urümchi mummy	10	Joy Broutrup's research into the method used to make this braid using loop manipulation braiding
Nancy	Spies	The mystery of pattern notation	7	Tablet weaving –decoding historical pattern records for gold brocaded tablet woven bands
Shirley	Tittle	Conservation: problems with light in the storage and display of textiles	2	Safeguarding textiles from light and damp
Shirley	Tittle	Curious commissions	9	Loom woven band for a historic 4 poster bed
Kathe	Todd-Hooker	Old Believers in Oregon	14	A history of the Russian Old Believers. The cultural significance of braids. How they are made and used. Poyas belts.
Alison	Urwin	Scientists are not the only ones curious about the evolution of life forms	9	Weaving animal designs based on Mexican textiles
Marijke	van Epen	Weaving with tablets	9	Complimentary warp weave structure 2 colour tablet woven bands based on Andean weaving techniques and designs
Betty Lou	Whaley	Two tablet-woven bands in three colour pebble weave	6	Peruvian designs using 60 triangular tablets
